Carolyn you are
a wonderful young woman
that I've known for a very
long time. When we went to
the same elementary school we
had a lot of fun. Then you left me
for the entire three years of junior
High. You checked in the same high
school as I and even enrolled in my
class. I always remember me.

Hi, Carolyn,

You are such a quiet
and nice person to know even
though I didn't really get to
know you, but it was certainly
a wonderful time have you
in the class. Wish you lots of
life lucks in your successful
future. God bless You.

Our Silver Anniversary

Westchester High School had its new beginning at a new site in 1955. As a product of exquisite imagination to some, Westchester began growing and gathering memories as the years passed. It saw the age of carefree living of the 50's student identity crisis, rebellions of the 60's, and hopes and dreams of the 70's. Now Westchester High School should expect to see greater new challenges and goals set for the 80's. We are proud to celebrate Westchester High School's 25th anniversary of achievements, hopes and challenges. These are all the symbols of the struggle for accomplishments that made Westchester one of the very best of its kind.

- Happy 25th Anniversary Westchester -

This years minor sports program was eliminated due to a deficit in the L.A. City School's budget. As a result, on October 14, 1980, the students of Westchester High School boycotted their classes and demonstrated peacefully over the entire campus. The demonstration was aired over all three major television stations and students still persisted to take action. KHJ T.V., Channel 9, sponsored a twenty-four hour telethon to raise badly needed money for our lost minor sports in the L.A. City School Districts. Although we were \$570,000 short of our goal, the boycott proved to be a worthwhile event, and the students of Westchester High School who took part in it can be proud they participated in this unforgettable event.

The evening of November 7 was Westchester High School's twenty-fifth homecoming game. The theme of this year's homecoming celebration was "I Love Los Angeles" in keeping with the 200th Anniversary of the city. Flag Captain Julie Kvamme was named 1980 Homecoming Queen and Peter Parr was named King.

The Homecoming Court consisted of Julie Kvamme and Richard Smith nominated by Drill Team; Merry Bantz and Mike Strand by Girl's Tennis; Renée Taylor and Robert Berry by Cheerleading Squad and Varsity Football; Teresa Amy and Patrick Hobbs by Letterman's Club and Lettergirls' Society; and Toni Hughes and Peter Parr by Varsity and Girls' Basketball.

Besides the crowning of the Queen, one of the highlights of the evening was a special halftime show put on by the Comedette Drill Team and Flag squads. This show featured routine done to "Surfing USA" by the Beach Boys, "It's a Small World", "Whip It" by Devo, and "Fame" by Irene Caras.

Anchors Away

"Good-bye" is not an ending
when you know that people care,
For miles may come between you
but warm thoughts are always
there . . .

"Good-bye" is not an ending
but a different start for you,
A time for making brand-new
friends

and seeing dreams come true . . .

"Good-bye" is not an ending,
for you'll find along life's way,
Within your heart you'll always
have

a part of yesterday.

Seniors

Westchester High School has provided three years of learning experience which the seniors will never forget.

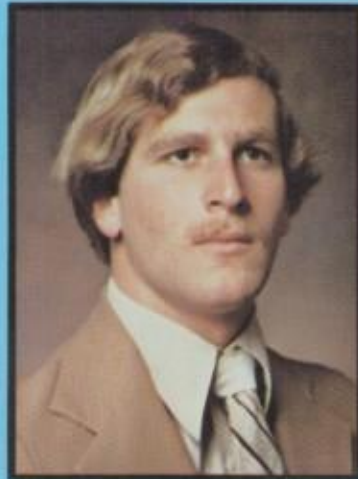

The amount of spirit clearly showed in their participation of senior week, dress-up days, football games, and typical senior pranks; e.g., when the Bob's Big Boy statue showed up on the Senior Lawn. All of these things plus many more made this a year to remember.

The Les Savants went through many changes in their senior year. The switch from a six period day to a five period day caused much confusion the first three weeks of school. There was a cut back on money from the school board which resulted in the cancellation of many sports activities, but, through a fund raising telethon most were revived. Also, because of problems with outsiders coming on campus, the administration found it necessary to lock the parking lot. This angered many seniors who wanted to

go out for lunch or to leave early for work. All in all, the Class of '81 made the best of it and at the end of the year things didn't seem so bad.

The end of the school year brought with it the reality of graduation. The day that had once seemed so far away was now at hand. A week before graduation awards, scholarships were given out and talk of college acceptance was everywhere. June 18th finally arrived and the Senior Class of '81 crossed the stage with diploma in hand. They celebrated Grad Nite with their annual trip to Disneyland.

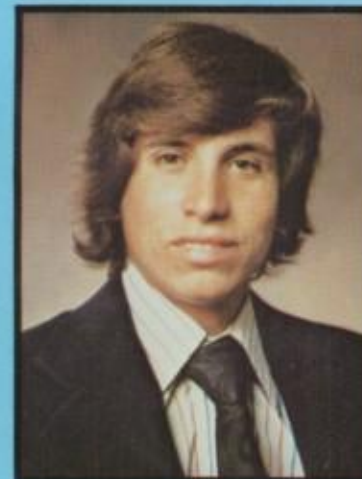

There is a sadness in graduating which we don't realize while we wish for it. Everyone seems to go their own way and many aren't seen again until reunion time. It's too bad the 1980-1981 year had to come to an end, but all the members of the Class of '81 will never forget their years at Westchester High School.

Juniors

Adrift

A smile costs nothing, but gives much.
It enriches those who receive
Without making poorer those who give.
It takes but a moment
But the memory of it sometimes lasts
forever.
None is so rich or mighty,
That he can get along without it
And no one is so poor
But that he can be made rich by it.
A smile creates happiness in the home,
Fosters goodwill in business
And is nature's best antidote for trouble.
Yet it cannot be bought, begged,
borrowed, or stolen
For it is something that is of no value
Until it is given away.
Some people are too tired to give you a
smile
Give them one of yours
As none needs a smile so much
As he who has no more to give.

JUNIORS: Eleventh grade is sort of a middle ground in which Juniors sometimes feel as though they will *never* be Seniors! However, the time passes quickly with only the memories of their activities and good times left to remind them of their fun and excitement at Westchester.

SOPHOMORES: The transition from junior to senior high is sometimes difficult, and often confusing, but the new tenth graders achieved it with ease. Eager to support their class, they sponsored a Spirit Week, then continued their enthusiasm with a bake sale, and the sale of Gift Check Booklets.

The original Lydians and Gabrinians, many years ago, were two of the four service groups collectively called G.A.L.S. clubs, worked for the Pop Warner games on Saturday afternoons. The present Lydians sold cookies in exchange for canned foods during the canned foods drive, sang carols during the Christmas holiday in front of the Fox Hills Hospital, and have sold pickles, cupcakes and carnations in order to make its contribution to student body funds. The clubs spirit is shown through its continued assistance to Westchester High. The Gabrinians is a very active service organization which constructively combines fun and work. The other two clubs that are no longer at Westchester were called the Arondas and the Shereens. This year the Lydians welcomed it's first male members to the club. The original G.A.L.S. Clubs symbol is in the center of the page.

Drama has occupied an important place in Westchester's activity schedule since the school opened. Although there have been many drama teachers in the past twenty-five years, the students have excelled in performance, both at school and in competitions. Trophies for award-winning productions include competition in city, area, and county-wide festivals. Students have won individual awards for pantomime, monologue, starring and supporting acting roles, and directing. Drama students have gone on to professional careers in acting and allied fields. One Westchester High School graduate in drama received a scholarship from the Drama Teachers Association of Southern California. In twenty-five years, Westchester has placed or won every competitive drama festival in the county. The present Drama coach is Mr. Uskovich. The picture at the top of the page is Drama in the 1950's.

Mr. Robert Wood is the present director and has been since 1958. Over the years Choir has performed at many banquets, meetings, etc . . . in the Los Angeles area. They also perform in concerts, festivals, and annually in the fall and spring productions. Mr. Wood feels that, "It's membership is comprised from some of the brightest, liveliest, and active young people on campus." Mr. Wood, we want to thank you for all the hard work and beautiful shows you've given us for the past 23 years.

In 1956, when Westchester High School first opened, the Knights and Ladies was organized. The organization is the top honorary service group at Westchester. Its members are made up of seniors who have achieved outstanding scholarship while giving service to the school. The Knights and Ladies go to work the very first day of school, passing out maps and information to new students. They usher at many school functions such as Open House and graduation. Ever wonder who puts up the flags every morning? Well, even if you haven't, the Knights and Ladies are responsible for the daily raising of the flags as one of the many services they perform for the school. Thank you to the past and present Knights and Ladies for all these years of worthwhile service to the school. The picture below is of the spirited Knights and Ladies of the 1960's.

Girls' League and Boys' League

In the early years of Girls' and Boys' League many activities such as the Spinster's Hop, cake baking contests, canned goods drives, and the ever popular Boys' League Car Show inspired spirit throughout the school. The Girls' and Boys' Leagues, still the hardest organizations in the school, allow any student to participate as much or as little as they wish. Each year both groups have a week dedicated to them in which they sponsor special activities throughout the school and community. The picture at the bottom of the page is of Boys' and Girls' League in the 1950's.

Student Government On The Move.

Student Government, the official link between the administrators and the student body, has been around since the opening of Westchester. They meet every 2nd period under the direction of Mr. Garnes, and work hard to bring school spirit and pride to Westchester's students. They try to work out activities that will please the majority of people and listen to the student body's ideas and try to make them work. Student Government is the backbone of Westchester High's student body and will remain so as long as there is a spirited student who is willing to work hard!

C.S.F. is one of thousands of chapters that is organized into five regions and has been a part of Westchester High since it opened. They sponsor a Sealbearer Tea in the spring, co-sponsor the Senior Awards Night, send students to C.S.F. conferences, and attend the C.S.F. day at Disneyland. Many people don't realize the importance of Graphic Arts at Westchester High. They supply the printed programs for the Choir and Drama shows, award certificates, office forms, etc. . . . The students continuously produce professional looking work. They should be commended for their determination and ambition. Thanks guys.

Senior, Junior, and

Mrs. Beverly Clopton has been the sponsor of the Senior Steering Committee since 1979. The committee is responsible for the planning and coordination of all senior activities. Last year many students participated in the Care-free gum contest and won 1,000 dollars in prize money which went into the student body fund. This committee was responsible for the spectacular planning of this year's Prom. Mrs. Clopton urges more students to participate in decisions affecting them by attending steering committee meetings.

The Junior Steering Committee is responsible for the planning and coordination of all the junior activities throughout the year, as well as raising funds in preparation for their senior activities. The juniors were, as typical of previous years, busy with the preparation of their senior prom.

Although the activities of the Sophomore Steering Committee were somewhat restricted, the sophomores got their ideas and feelings together to plan for their junior year. The main goal of this steering committee is to meet and talk with fellow students who have expressed the need to develop their ideas.

Our AFS Student

My name is Shonte Clayton and I was an American Abroad Student during the year 80-81. I became interested in the American Abroad Program in the 1979 school year. In October of that year I decided to apply for the year program. In December of that year, I found that the country I was going to was Argentina. Needless to say I was very excited and anxious. The city I lived in was Rosario, the third largest city in Argentina.

My AFS year was one of the happiest and trying times of my life. One of the hardest things for me to learn was the language. No one in my new family spoke English, so it was up to me to learn Spanish as quickly as I could. Within two months I was speaking the language well enough to be understood. Living in Argentina for me was quite different from living in the U.S. The people are much more affectionate in Argentina. Upon greetings and departures everyone kisses each other on the cheeks. This was one of the customs I really loved, as it made me feel closer to the people and helped me to adjust to life in Argentina. I gained so much during that year, much more than I would have gained if I had stayed here in the U.S. Being away for a year helped me to grow and to be more aware of myself and my surroundings. It wasn't the easiest time in my life, but it's one I will always cherish. I recommend the American Abroad Program to anyone who is seriously interested.

A.F.S. is a worldwide organization which was conceived during W.W.I. by concerned ambulance drivers. It was intended to promote greater understanding among people of all nations with the hope of no more wars. However, it didn't get started nationwide until 1946. The organization has been an active part of Westchester High since the school began in 1956. Being a part of the A.F.S. club leads the way to many exciting opportunities. Each year about 7,000 students, participating in the exchange program, leave home for one of the sixty countries involved in the A.F.S. program.

Lucy, Rieko and Marianne.

Many students prefer to explore the U.S. on the A.F.S. Domestic Program, or even just share the fun at our school with students of different nationalities. This year we had students from Japan, Rieko Sato; Luxembuorg, Marianne Neiens; and Australia, Lucy Fisher. Under the supervision of Mr. Foote, A.F.S. had car washes, pizza sales and other activities to raise money for the program. When you need a bigger challenge . . . When your horizons seem the same . . . When you want a little excitement . . . Think of A.F.S. The picture below is of A.F.S. in the 1960's.

Flight Song

Flight, fight for Westchester High
Keeping the red and white in the sky,
Send our volley cheer on high,
Shake down the thunder from the sky.
Whether the game be track or with ball,
Westchester High will win over all
When our loyal team comes marching
Home from the victory!

A little-known and long-forgotten symbol of Westchester High School is the dormant figure of Willie Westchester, the fighting beacon which Westchester used to rally around in the beginning days of WHS more than 25 years ago. You may have seen this figure around campus, believe it or not it still does exist. However, you may have to do a little digging to find him (her) now.

Bearing a strong resemblance to a hybrid cross between Superman and Flash Gordon, the most popular rendition of our fighting mascot is one of a fighting pose standing up to the fight of opponents such as Crenshaw, Hamilton, Palisades, Venice or University; the members of the Western League which WHS has been associated with since 1955. In more recent years, thanks to relegating, the opponents have changed but Willie still fights for the Comets, staving off all foes.

Willie made his first appearance in 1952 in that year's copy of the school annual "Flight". It might be interesting to note that Westchester graduated its first senior class during that year of '52. The current campus site was a combination of an Armed Forces missile site and bean field with the current Orville Wright Junior High School campus acting as home for all WHS students. The only major change occurring in some 15 years in the character was more cosmetic than anything else with the original "WHS" in bold block letters removed from the cape in 1958. Willie's winged ears were given an overhaul during '58 at the same time as the original wings, which could be confused with overdone chicken wings, were more dramatically done than in the original version. The ears were also lifted higher toward the heavens that Willie was to represent rather than the old drawn back look that represented speed.

With aerodynamics and space travel so commonplace at that time, Westchester students turned back the hands of time and contemplated a Western motif for their steadfast little mascot. Proving that every idea does come full cycle, the Western theme again becomes popular with the success of "Urban Cowboy", Willie Nelson, J.R. Ewing and others. While Willie as a cowpoke never got out of the planning stage (with then principal, Mr. Joseph Herman adding a helping hand), the idea was to dress Willie entirely in Western gear with boots, hat and all.

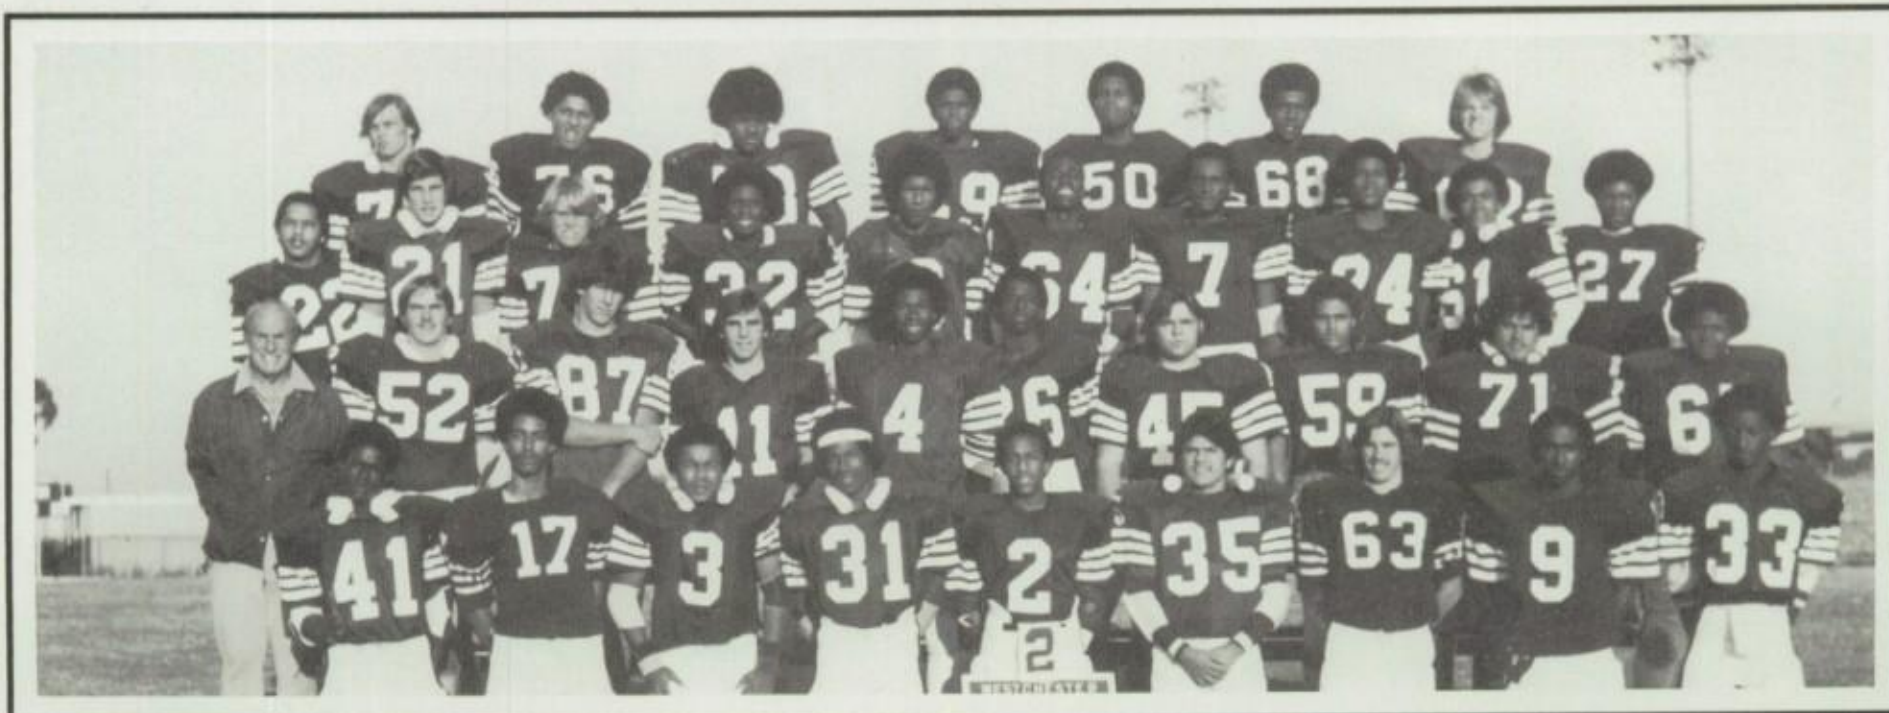

The only original concept that would remain is the red and white face, those lovable ears and a new wrinkle with the word "Comets", which formed a jagged lightning in red, from a smoldering sixgun. This idea then died out once again for lack of enthusiasm. Willie has, like a lot of Westchester's traditions, gone dormant to the ravages of time, old age and just plain and simple forgetfulness. Willie's "Golden Moments" did occur in 1971 when the live appearance of the famous mascot arose in the person of Randy Johnson at WHS football games. Unfortunately, maybe the reason that Willie declined to exist after '71 was the combination of his "alter ego", Mr. Johnson graduating, and Willie's work producing a deflating 4-5 football record after going to the playoffs the year before. Recent attempts at a new mascot have fallen flat on their faces, with the only honest attempt coming during 1980 when a new and modernized "Comets" logo appeared. These drawings are some of the past and present symbols. Who knows, maybe they'll be future ones, too. Phil Sandovil

The rebuilding year for Westchester found a young inexperienced team wanting for points on the score board in many games. However, the score was no indicator where courage and determined effort was concerned. Westchester's outstanding players were Byron Phillips, Robert Berry, Bill Via, Gerard Brown, Curt Washington, Mitch Ragsdale, James Henderson, Robert Smotherman, Odis Campbell, Michael Katz, Bruce Miller, Darryl Tanner, Greg Reid, and Pat Hobbs who displayed the quality and talent that would make Westchester proud in spite of much adversity.

There were a number of outstanding players making the all-league team. David Johnson at defensive back, Jim Locke and Kyle Fields at the line positions, Steven Dye as an offensive back and Kerry Watson as a linebacker.

The Comet women are looking for their fourth consecutive league title but it will be hard to defeat a strong Crenshaw team. The Comet team is strong again with senior Margaret Garszka in the distance events; senior co-captains Lisa Walker, sprints, hurdles, & 440 relay and Janine DeWitty, sprints, long jump, & 440 relay. Hurdlers will be strong with Angela Wade and Lisa Walker. Newcomer half miler Trescia Palmer along with returners Sheila Purnell, Lori Drake, Tina Smith, and Sheri Griffin should be strong assets to the team.

The Comet women will continue their winning ways and will improve the overall 50 wins - 1 loss in dual meet competition.

After a slow start in the West L.A. Tournament and the four scrimmages; the Comet Varsity gets ready for the Western League. Led by Dan Greenleaf, Bob Smotherman, Brett Hanson, Jim Anderson, Richard Smith and Doug Horton, the Comet Horsehiders hope to win the Western League and wind up their careers in high school by playing in Dodger Stadium.

Pitchers Greenleaf, Hanson, and Roy Scott hold the big key to the baseball league title. Hitters Anderson, Smotherman, Smith and Horton hope to drive in the key runs during the league season. Juniors Mike Manahan, Ed Lopez, Mark Voorheis, Steve Foley, Pat Frasca, Edgar Witherspoon, Craig Ekstrom, Jim Locke and 10th grader Greg Mollner will all play key roles on the Comet Varsity this season.

With only 2 players returning to this year's J.V. squad, the team was very young and inexperienced, but not without talent. The pitching was stronger, the defense was better, and with some timely hitting the J.V. team had a winning season.

The Women's Varsity ended up third in the very strong city west league with an overall season record of 12 wins - 4 losses.

The team was led by "All City", "All League" and MVP senior center Renee Avelino, who averaged 23 points and 17 rebounds a game. Seniors Nina Alivera, all league second team, and Lisa Tyler, coaches award, were the two forwards on the starting team. Juniors Lori Znuzuka, all league second team, and Cindy Oune, leading the team in assists, were the guards. The team was bolstered by returning senior Toni Hughes, junior Angela Wade, and sophomores Jackie Pete and Pamela Whitmyer, Pamela being the team's third high scorer.

Varsity Basketball

The 80-81 Basketball season began on an impressive note with the Varsity winning the consolation bracket of the Lakewood Tournament; and the Junior Varsity doing the same in the Carson Tournament.

From that point on, frustration seems to best indicate what type of year was to come. Entering the league after having lost tough games to Carson, Banning, and St. Bernards; the Varsity led by senior guard Dwayne Mason challenged Palisades into the last 30 seconds before losing 55-59. There were to be two more overtime losses and two other games lost by one point each. A very tough year. But with four returning Varsity Lettermen and a dedicated group of Junior Varsity, the 81-82 season looks bright.

Junior Shirley Nishitarumizu, completed the forward line, while junior Karen Kawamura and sophomore Patty Barnett were the starting guards. Jeri Murikawa and newcomers Debbie Souice, Nikki Parker, and Joan Koltvet gave great reserve support.

Westchester's Faculty has been an exceptionally fantastic group this year. They had to live through boycotts, complaints from angered students over tightened security, budget cutbacks and a switch to five periods a day.

Fern Earick, Westchester's Hostess.

Mrs. Earick an eager student

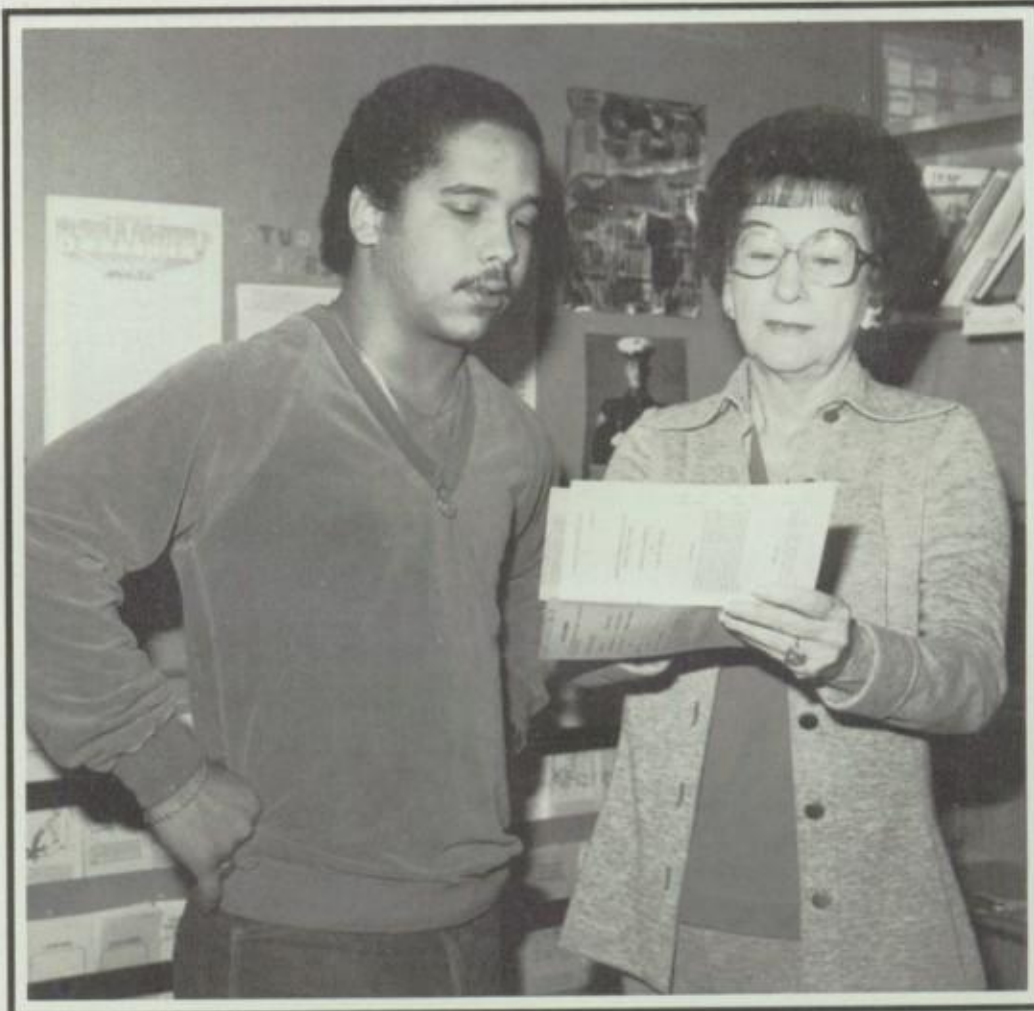

Whenever one thinks of Westchester High School and its beginnings, one cannot help but think of a very special lady who has long been recognized as Westchester High School's official hostess — Fern Earick.

In her inimitable way, she has organized and served at numerous banquets and functions starting when WHS was Orville Wright Junior High and continuing throughout her years here at our present location. No wonder she is thought of as "our hostess with the mostest", for we are sure she has served more coffee than Mrs. Olsen!

Though her teaching career was in home economics, her helpful hand has been instrumental in developing and supporting other programs as well. She organized the original "Gals Clubs", of which the Gabrinians and Lydians still remain. Her expertise and knowledge was invaluable in developing our pre-school facility, so important to the Early Child program and our community today.

She assisted the Vice-Principal, Mrs. Carey, in the 60's when measuring skirts was a daily routine. (Remember the days of the "mini" and dress codes?) Since 1973, she has organized the master calendar and in so doing has contributed to a smoother running school. Senior activities? Whether picnics, proms, graduation or jogathons — she was there with a steady hand and willing service. In 1978, she became Career Advisor and coordinator of the Regional Occupational Programs. And just recently in 1980, she added another duty — the Work Experience Program!

Those of us who have had the good fortune to know her personally have experienced first hand her quiet strength. But she has touched us all — whether personal friend or not — for her steady capable hands have given us a better school.

Adding a helpful hand.

When one remembers the early days of Westchester High School, it's only natural to think of Jerry Foote, who came to this campus when it first opened in 1956. In fact, not many teachers here have had the special perspective he has, for he actually stood at the threshold of his unfinished classroom, peering through the wooden frames when the walls were as yet unplastered! Now that's being here from the ground up!

Though he started his career in mathematics at Mt. Vernon Junior High in 1951, and has continued teaching in the math department here to the present day, he has distinguished himself in whatever the task. He has been elected both faculty and department chairman and even worked as a counselor for while.

But those that know him well, know that he also qualifies as a first rate naturalist, for he not only loves nature — hiking and exploring the California wilderness — but he is a knowledgeable botanist that can name the flora and fauna in his path! No wonder that when we needed someone to teach horticulture in 1976, he was chosen.

A special teacher, who realizes that the extra-curricular program is an integral part of any high school, he has volunteered countless times for many of our activities — sponsoring A.F.S. (foreign students' program) and working the track meets to name but a few.

Not only did he help organize both of our jogathon fund-raisers, he was himself a competitor in both meets. A strong runner and frequent participant in city-wide races and various 10 kilometer runs, he lost only by a nose to another tough contender, Joe Douglas in Jogathon 1979, only to take First Place in Jogathon 1980! (Joe Douglas wisely didn't run that year!)

As you can see Jerry Foote is a man of many talents and abilities: A talented musician . . . he has performed on oboe with the Peninsula Symphony Orchestra for ten years! An excellent amateur photographer . . . his photographs are so professional in tone and theme, he could challenge some so-called professionals. Whether performing in a symphony orchestra or running in a 10 kilometer run, Jerry Foote comes in a winner for all of us here at Westchester High School!

He just doesn't stop!

Grâce a vous, Madame Schwartz

Isn't she the cutest darling?

The ever fascinating Maya.

Madame's first trip to Paris.

I remember WHS in 1955 when I took three buses to get here (I was broke and I didn't drive). WHS was way out in the sticks then, very isolated. The last touches of paint were being applied. I remember the excitement, challenge, and apprehension of that first teaching assignment. I remember WHS when learning was king. There were 3 to 4 full time French teachers at one time, including dear Al Desrosiers. There were many language workshops which could barely keep up with the demand. I also remember when I was slightly older than my students. A few times when I went to the office, an adult authority figure would scold me, "You're supposed to have a pass given to you by your teacher!"

I remember fondly, but with sadness, my students that are no more: Eric, Dennis, Christie and others. Some of these deaths were freak accidents; car accidents, suicide, or murder. I remember Jean Marcel, one of my first French Canadian students; his mind wasn't always on French. Through the years he has sent me cards from Japan and Hong Kong. Today he is a major in the U.S. Air Force and a major advisor and diplomat in the U.S. and world. We had dinner last year. He was a handsome 41 years old. He told me that after he had made the date with me, the Greek defense minister wanted to see him at that time. He replied that he wouldn't cancel his date with his favorite French teacher under any condition and would see him the following day. My ego burst with pride. He had come back from Vietnam suffering from stomach pains. His eyes told me of untold horror and suffering. When I asked him if he was happy, he said, "Kind of."

I remember WHS when John Elg, Sue Cohen, and her brother David were my students. Suzanne was always très consciencieuse et très appliquée. David was easy going, always laughing and joking, but hardworking too. I remember Roccie and her beautiful creative writing in French. I accused her of copying someone else's work. She burst out, "But Madame, you don't understand. I love to write!" I received a letter from Roccie last year. She had published books and won awards at college for "most promising young female writer." She wrote me from France, "I remember when I sat through your class and dreamt of France and Paris. Today that dream has come true. I am spending a year in Paris. I love it and I hate it too, at times." I understood. I remember running into Laura at Robaire's restaurant many years later as I wondered with amazement, "You speak such beautiful French, Laura!" She replied, "Grâce à vous Madame." Thanks to you Madame.

We all feel the same. "A great big thank you to Maya Schwartz."

Always the happy face.

Maya taking a break during her first year teaching.

Cheryl Bockhold.....I first opened our WHS Preschool. The Students made almost everything from wood, cardboard, and felt. They made the preschool equipment, toys and games. Garages and attics were searched for long forgotten playthings. Carpet squares were taped together for a rug and the faculty coffee table in K building was rolled out for art activities.

Since that time the program has expanded from twelve preschoolers to fifty and from twenty WHS students to forty, who teach in the fully equipped preschool bungalow in the Careers with Children class.

"I remember Westchester when . . .

Robert Hammond.....there was an opossum that crawled up the outside of Pete Skrumbis' room and there it "kicked the bucket!" Nobody knew he, she, or it, was there until a few languid, rather unseemly smells began to permeate the air. No one could figure where these odors were coming from — it had been determined that Pete and class had taken baths — yet, there they were, and what's more, they were getting worse! The locus was finally determined by the many noses of Westchester to be in the place hereintofoe mentioned — right outside Pete's room, C-1, under the window. Pete had to evacuate. Then began the long, tedious process of removing the offender. It took a week. First it had to be determined by the Maintenance Department there was, in fact, a smelly problem. Second, after a delay, the sheet metal people had to come out to remove the cober to the heating pipes — of course, they wouldn't touch the Offender. Third, kind of hazy, but it seems that some disposal unit of the school complex came out and finally took the now badly decomposed body of the opossum away. Things became quieter. The air had been cleared. Shortly, Pete and class were back in the room. However, it wasn't until at least a week later the process of disassembly was reversed, and reversed, and once again Westchester High settled down to its peaceful pursuit of honoring scholars of that time to a fine edge to fit into the positions of status, trust, and confidence we see them in today."

...twenty-four years ago my wife and I attended a class at this high school for the care of newly born babies. I was better prepared to help with the care of our son not long after."
...we lived a mile to the east of Mines Field, under what is now the south approach pattern, in the 1920's. I recall a Sunday morning when church services in Lennox were excused to watch the U.S.S. Shenandoah (ZR-1), the first rigid-dirigible filled with helium, fly over.

A silver spindle rode the sky.
It left a mark on every mind.
That wondered why.
It prophesied a time (not nigh).
When almost anyone could fly.

In 1925, this beautiful craft crashed during a squall over Ohio. I remember being allowed to stay up until midnight to watch the Graf Zeppelin sail in out of the dark and land at the Field. This was in the Summer of 1929.

...I recall airmeets of the '20s. World War One biplanes landed in between haystacks, wingtips skimming straw. Mr. Bennett, who farmed Mines Field, had a new tractor. People came to see it work almost as much as to see the air show. (Horses and mules did nearly all of the farm and road work.) There were balloons. Charles Lindbergh made a parachute jump. Exhibits were in circus tents as there were no buildings at the airport.

...In the 1930's, I witnessed the flights of the Akron and the Makon over the field. These dirigibles were nearly 800 feet long. Each one had eight engines and carried five fighter planes inside.

...Manchester Blvd. was constructed in the 1930's, but Westchester remained open land and in grain and bean fields until World War II. At that time the land filled with bunkers, barrage balloons and anti-aircraft guns. P-38's and Mustangs power dived over this area. Sometimes the howling roar ended with an explosion that shook the ground from Venice to Hawthorne.

...the Northrop Flying Wing performing a sequence of rolls in a steep climb. There were many experimental craft with strange designs that I saw in flight here.

...there were the black-outs and the probing searchlights. I recall the anti-aircraft as Japanese planes were reported overhead.

...In the early Spring a sea of frogs and toads sent up an amphibian chorus from the sand dunes to Inglewood. In the evening this sound was punctuated by a few dogs barking here and there in the distance, and in the dawn roosters echoed to one another from acre to acre. Rolling over all came the whistle of the steam train, and the long enduring metronomic tolling of the locomotive's bell. There were the sounds of birds and crickets, but the backdrop was silence."

"Do not stand at my grave and weep;

Looking back

The year 1955 marked the beginning of a new era for Westchester High School. What is now Orville Wright Junior High School was Westchester High. Grades in attendance were from 7th through 12th, with an enrollment which totaled 380.

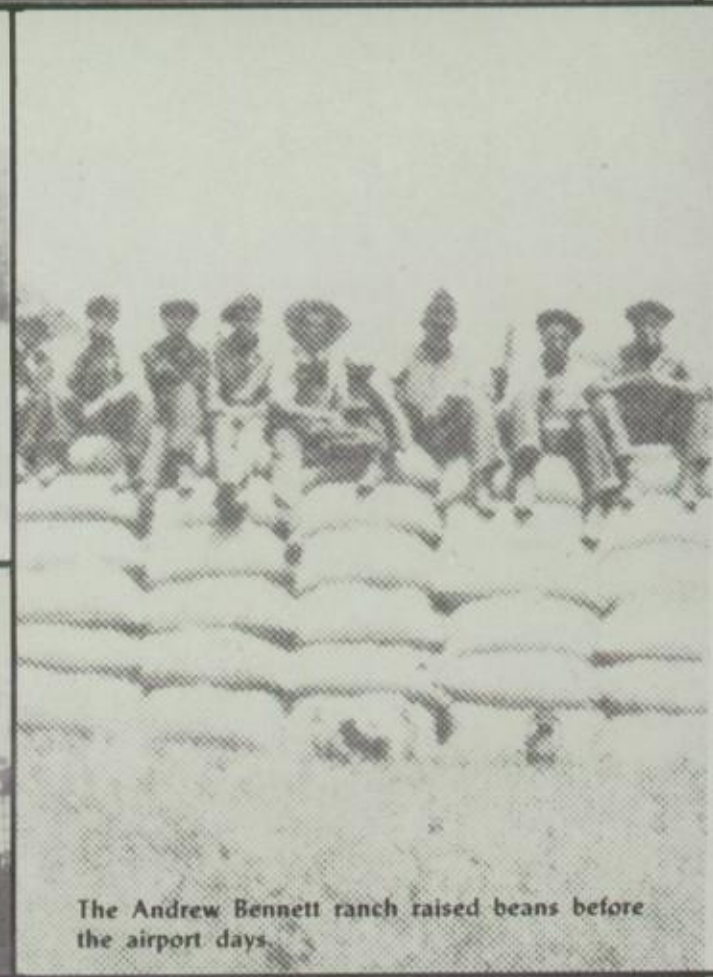

As the community grew, so did the need for a larger school. Chosen as a site for the new campus was a bean field located off of Manchester Avenue. Soon this was to become the home of "Willie Westchester" and years of true and undying Comet spirit. In the fall of 1956, Westchester High School opened its doors for the first time to an enrollment of over 2000 students!

Westchester's early years

So Westchester Senior High School has now achieved its 25th birthday! Congratulations are in order. It has lived through one of the most exciting and even dangerous epochs of the world's own history and survived with perhaps a moment to pause and look back a bit. Let's see what went on before ground was broken for the buildings which were completed and turned over to the L.A. City Board of Education with a ceremony held in our beautiful auditorium in 1956.

To begin with, what of the land on which this school plant was built? Few realize that this area was once part of a Spanish Land Grant which, by various purchases, ultimately consisted of 25,000 acres, which included sites of seven Centinela Valley and beach cities in part. Chief water source of the time, in the early 1800's, was Centineta Springs, and from the ranch headquarters at Centinela Adobe, extensive dry farming spread out to cover the now Westchester area as far as the ocean.

Wheat raised in this area was shipped from Port Ballona, now Playa del Rey, from a wharf now long gone. Even a railroad ran through the ranch, from Santa Monica to the Port of Los Angeles where a mile long wharf competed with facilities at San Pedro, until a heavy storm settled the rivalry in favor of San Pedro by washing away the wharf at Santa Monica. Later, an electric line ran through part of the ranch area from Inglewood to Venice and tied in with other lines which all became part of the Pacific Electric system.

Even a hog ranch existed until the early 1940's near what is now Manchester and La Tijera. On foggy nights it served as a beacon and navigational aid to those of us who drove out Manchester to find our way home to beach cities. The median strip dividing Manchester was, as a part of the condition of sale of land for the highway, to be left in perpetuity as a horse trail!

Probably few of our present day students would know that during the 1950's we were next door to the Army. During this period there was a Nike Missile site operating off Pershing Drive, and one of the Radar Tracking and aiming control units was next door to us at the west end of the administration building.

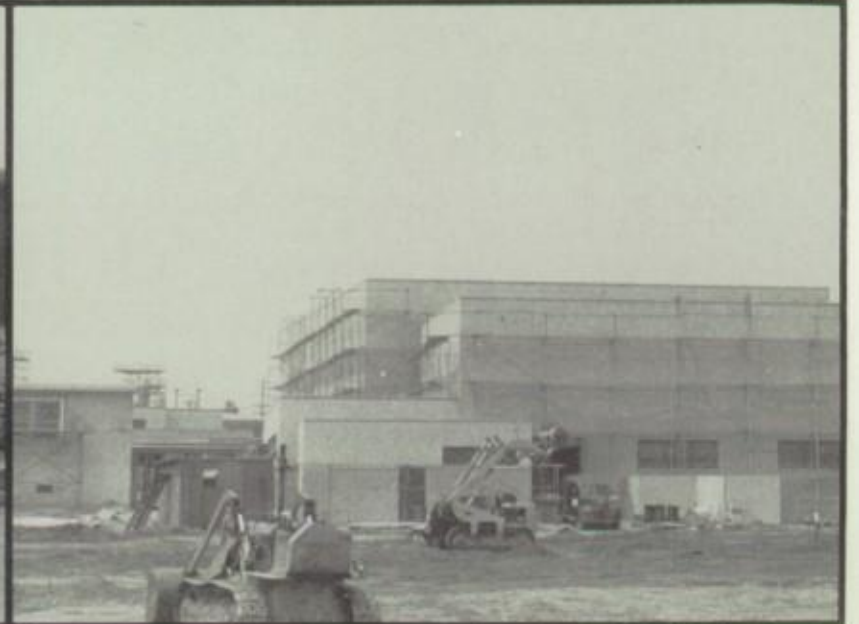

As the space age exploded upon us with the sputnik flight, we felt the impact in our school, as emphasis on physical science, mathematics, and related activities became very pronounced. We were fortunate that we received great help as our neighboring space related industries cooperated in organizing and presenting special activities to stimulate interest and aid in the educational programs.

Of course, we are constantly reminded of the presence of the aircraft industry; but how much do we appreciate our part in its history? At times, I can remember, we had to have "take off breaks" when classes simply had to pause until some heavily loaded plane climbed for altitude on taking off from the North Runway, and got far enough out over Santa Monica Bay so that conversation and hearing could resume.

However, during such a pause, one could well think about the first around the world flight, leaving Clover Field, Santa Monica in 1923, or the Zeppelin landing at Mines Field in 1929 on its' world flight. And the DC-3 and the long string of aviation and space achievements in which we and our friends and families have been a part. Think about it. Just a hundred years ago this area was just a huge wheat field, and had just converted to dry farming because a drought had killed off thousands of sheep that had been the ranch activity of the then owner Daniel Freeman, for whom Freeman Hospital is named.

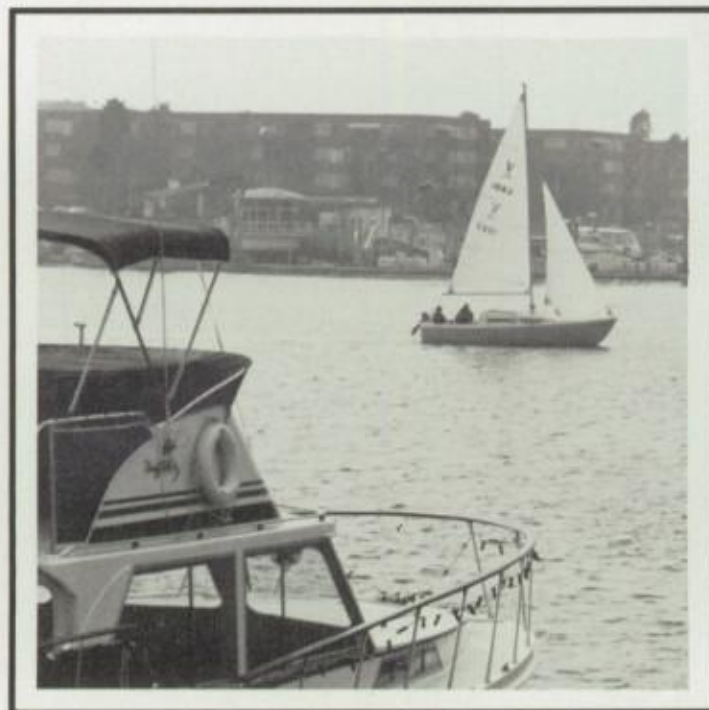

It has been a great time to have lived. In my lifetime it has meant practically from the horse and buggy era through the Space Age. Just think what part this school can play in the life of the country during the next 25 years.

Yearbook Staff

Front Row: Pam Arlt, Kristie Anderson, Donna Balfour. Second Row: Cathie Cavaliere, the girl with the hair, Laurie Varner, Vazken Brutyan, Dana Klatte, Theresa Baker, Carol Lyon. Third Row: Mrs. Birch.

What a year! Looking back over 1980-81, it would be almost impossible to recap all the events in such a small space. It seemed as though everything that could have gone wrong did, but we pulled through. All the time and dedication that went into the making of the annual were well worth it. It's a unique experience, one which everyone who participated will never forget. It is truly rewarding to see the finished product and to be proud to say that you yourself were a part of creating a masterpiece.

Come on gals . . . be serious!

Trying to look professional.

Huh? The deadline was last week.

What's funny, Carol?

You have got to be kidding.

Yearbook just drove me up the wall.

Ship Ahoy?

I'm so confused!

I'm just hanging around.

The Fleet's in!

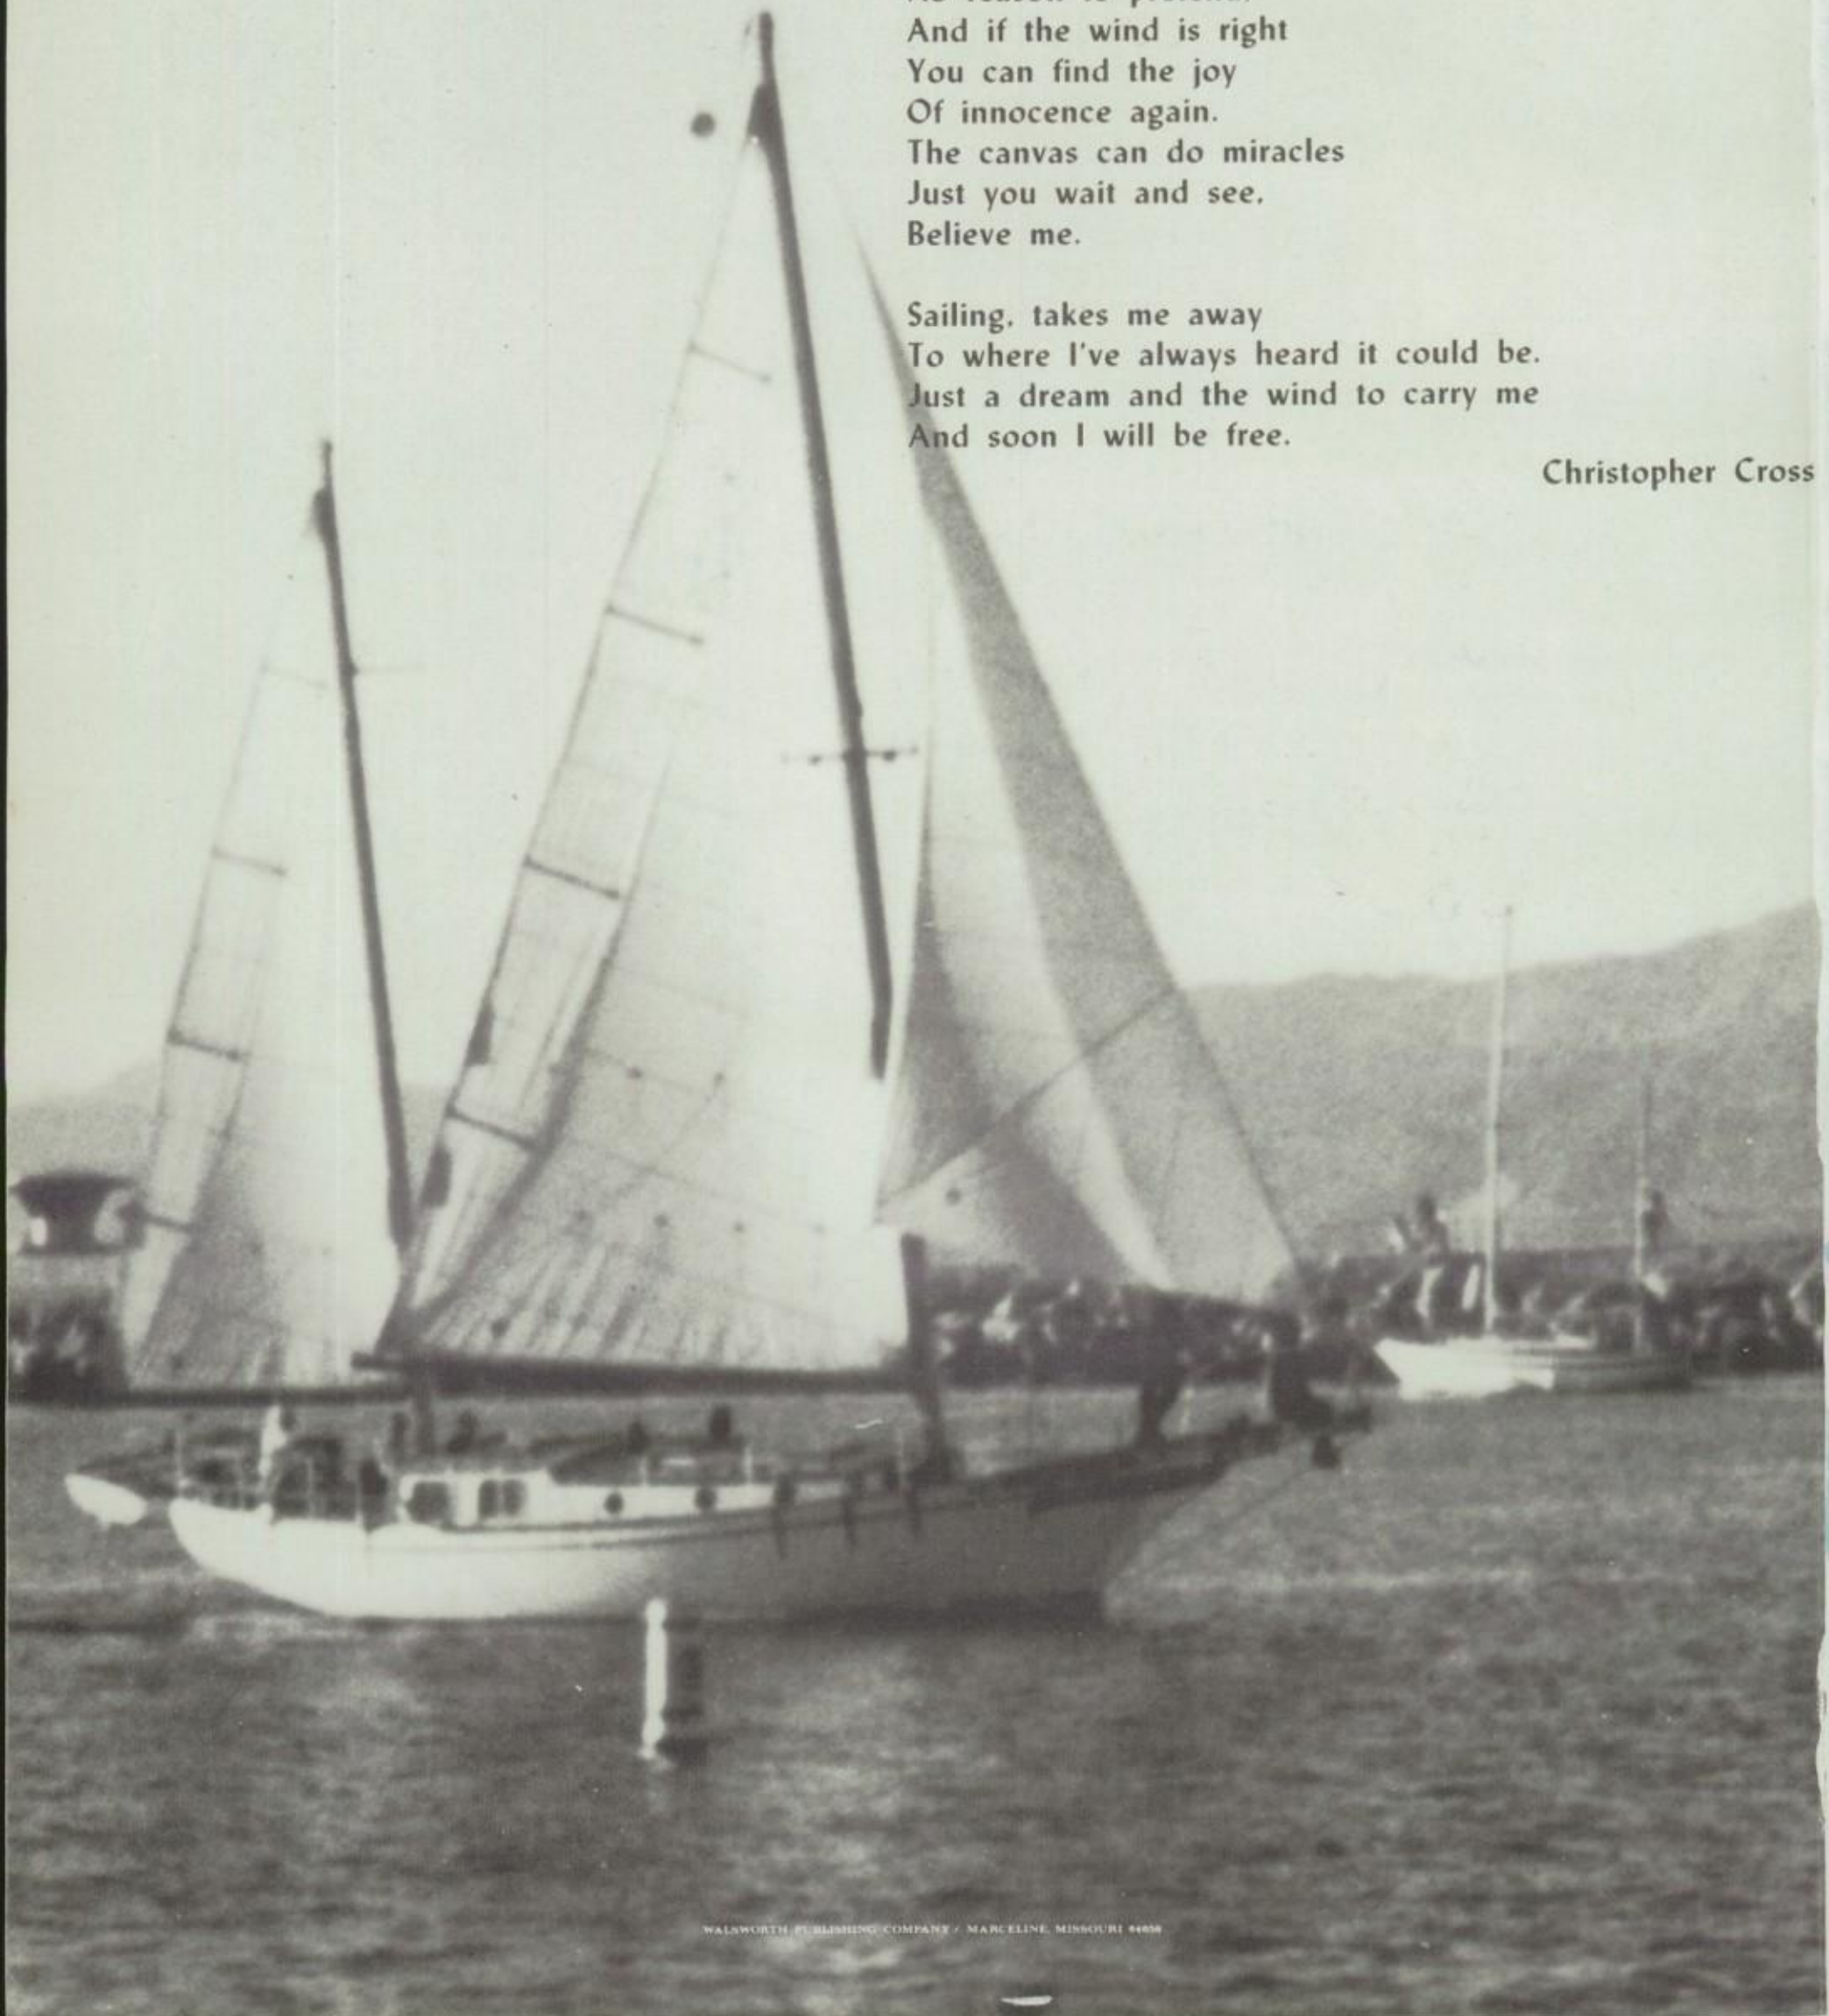

Caught in the act!

It's not far down to Paradise
At least it's not for me.
And if the wind is right
You can sail away
And find tranquility.
The canvas can do miracles
Just you wait and see;
Believe me.

It's not far to never never land
No reason to pretend,
And if the wind is right
You can find the joy
Of innocence again.
The canvas can do miracles
Just you wait and see,
Believe me.

Sailing, takes me away
To where I've always heard it could be.
Just a dream and the wind to carry me
And soon I will be free.
